EDUCATION

Bachelor of Technology in Computer Science and Engineering (2021–2025)
Graphic Era Hill University, Dehradun CGPA: 7.32

WORK EXPERIENCE

Graduate Engineer Trainee – Infrastructure Security (HCLTech) (Sep 2025–)

- Frameworks: FortiGate, Zscaler (Zero Trust), Palo Alto
- Managed firewall operations using Cisco Firepower and Palo Alto PAN-OS; handled configurations and validation.
- Monitored policies, NAT rules, and logs; troubleshoot access issues and supported VPN and HA operations.

FrontEnd Developer Intern – Integrated Maritime Exchange (Dec 2024 – Jan 2025)

- Built responsive UI for Voyager Estimator with dynamic cost logic for real-time calculations.
- Optimized frontend performance and integrated frontend with backend systems.

TECHNICAL SKILLS

- **Languages:** Python, Java, C++, JavaScript, SQL
- **Frameworks/Tools:** Spring Boot, React, Node.js, REST APIs, MongoDB, Git, Jenkins
- **Concepts:** DSA, OOP, System Design, Cloud, Cybersecurity
- **Problem Solving:** 200+ DSA problems (LeetCode/CodeChef)

PROJECTS

Task Manager (Next.js, React, TypeScript, Express, MongoDB) (Aug 2024)

- Built full-stack task manager with REST APIs and optimized queries.
- Achieved 45% faster loads, 60% faster APIs, reduced requests by 50%.
- Implemented real-time Kanban; scored 90+ on Lighthouse.

Multilingual Audio-to-Text and Translation Tool (Python, PyTorch, Whisper) (July 2025)

- Built NLP pipeline for speech-to-text and multilingual translation.
- Improved accuracy and reduced latency via optimized preprocessing.

AI-Powered Information Retrieval Agent (Python, GPT, Streamlit) (Aug 2025 – Oct 2025)

- Developed LLM-based scraping system for structured data extraction.
- Enabled batch processing with error handling and retry mechanisms.

CERTIFICATIONS

- Google Cloud Computing Foundation
- Google Cybersecurity
- AZ900
