EDUCATION

- Bachelor of Technology in Computer Science and Engineering** 2021–2025
Graphic Era Hill University, Dehradun CGPA: 7.32

WORK EXPERIENCE / INTERNSHIP

- Graduate Engineer Trainee – Infrastructure Security (HCLTech)** (Sep 2025–)
 - Frameworks:** FortiGate, Zscaler (Zero Trust Firewall), Palo Alto, Comptia Security+.
 - Worked with APIs and dashboards of FortiGate, Palo Alto, and Zscaler to analyze configuration data and automate documentation tasks.
 - Hands-on exposure to network protocols, system troubleshooting, and secure configurations.
 - Gained an understanding of system flows, network architecture, and automation opportunities.
- FrontEnd Developer Intern – Integrated Maritime Exchange** (Dec 2024 – Jan 2025)
 - Tech Stack:** HTML, CSS, JavaScript, MySQL, and cPanel.
 - Designed and developed responsive UI screens for the Voyager Estimator tool using HTML, CSS, JavaScript, and cPanel deployment.
 - Integrated dynamic logic for cost and resource calculations, improving usability for logistics operations.
 - Strengthened JavaScript, UI/UX, and frontend architecture fundamentals while collaborating with cross-functional teams.

TECHNICAL SKILLS

- **Programming Languages:** Python, Java, C++, JavaScript, MySQL, PHP, C
- **Frameworks and Tools:** Git, RESTful APIs, Jenkins, React, Node.js, MongoDB
- **Knowledge:** Data Structures & Algorithms, Object-Oriented Design, Problem-Solving, System Design Fundamentals

PROJECTS

- AI-Powered Information Retrieval Agent (Python, GPT, Streamlit, Google Sheets API)** Aug'24 – Oct'24
 - Built a web-based dashboard for automated web scraping using predefined keywords or entity-based queries.
 - Enabled structured input via CSV/Sheets, implemented real-time scraping with robust error handling.
- Multilingual Audio-to-Text and Translation Tool (Python, PyTorch, Whisper, FFmpeg)** July'24
 - Developed a tool to transcribe audio files and translate text to user-defined languages using NLP.
 - NLP Features:** Implemented Speech-to-Text (ASR) with the Whisper model, automatic language detection and neural machine translation (NMT).
 - Key Accomplishments:** Enhanced model precision in language detection and translation quality using advanced NLP techniques.

CERTIFICATIONS

- Google Cloud Computing Foundation
- Google Cybersecurity
- AZ900
